

## The New Walk Circus Trail

Thurs 28 May 11am - 4.30pm

£5 per person (babes in arms come free)

Now this is a special day for families! A *whole day* of fun with a circus theme. The day will include a circus skills workshop with **Genii Productions**, craft activities with the artists from The City Gallery, stories from **Paul Gobéy**, an ice cream workshop (yum yum) at the Belmont Hotel and finally *Dumbo* courtesy of Phoenix Arts.

Don't wear posh clothes and be prepared to sleep well after all this! Bring a packed lunch or buy from our kiosk.

## Family fun at our summer festivals

We can't wait for our two festivals this year – as you can see from the photos we always have a ball in the Kidzone! This year's theme for the kids is *Outer Space*, so we will be dressing up as aliens, creating Daleks from Mod Roc, watching space clowns and storytellers, making space comic books as well as learning how to juggle and spin plates! We don't forget the under fives either, we're recreating the

surface of the moon with lots of touchy feely and messy fun for them.

We're aiming for all day fun for our festival families!

## Book Of Optics Pt 3

Periphery by Hamish Walker

Until 24 May

The *Periphery* series examines notions of boundaries and systems of control. Taken from a moving vehicle on the motorway, the photographs capture a landscape that is normally rendered invisible by speed.

The composition; regulated by consistent sections of tarmac, crash barrier, embankment and eventually sky; implies a sense of stillness, quiet and yet of controlled freedom with bars preventing escape.
